## What is Deborah's Philosophy?

My philosophy (system of motivating concepts or principles):

- We are born, generally good
- We have the ability to be logical, rational as well as irrational
- People, if equipped with the knowledge, guidance, and sometimes counseling, can solve their problems
- People need to have "motivation & insight" to want to change dysfunctional behaviors

Social Workers, Counselors, & Advocates (SWCAs):

Ideally, SWCAs provide a window that allows one to look within

- SWCAs should be able to explain & be willing to listen to your concerns, ideas, & goals
- SWCAs should inform their clients that their purpose is not to solve the problem but to equip them on the path of wholeness
